SPONSORSHIP PACKAGE

LONGHORN ROBOTICS

Located At:

Leigh High School
5210 Leigh Ave.
San Jose, CA, 95124

About Us

Background

Founded in 2017 and located in Leigh High School, we have participated in the FIRST Tech Challenge annually. We build robots for competitions while developing technical skills such as building and coding and non-technical skills such as leadership and outreach.
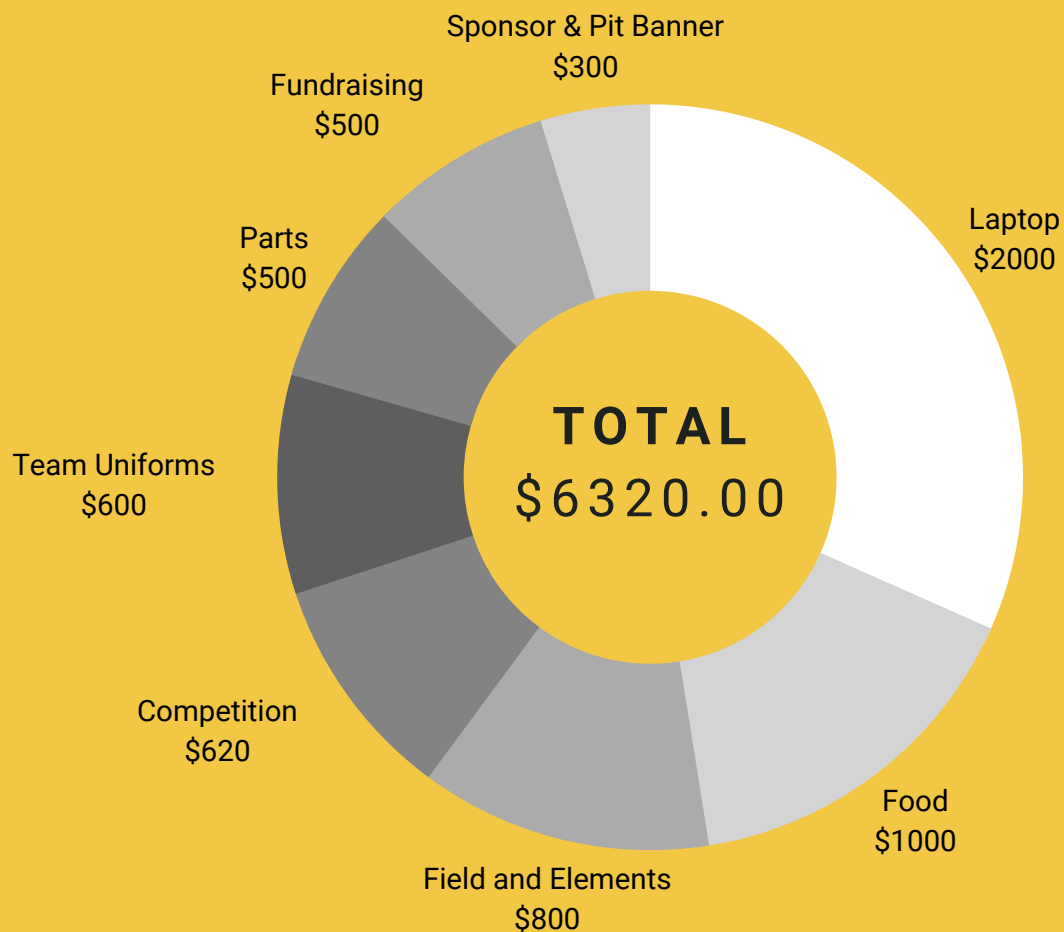

OUR TEAM

LONGHORN ROBOTICS

Our team was founded in 2017 as a small club in Leigh High School with the mission to teach students about robotics. Our first year, we made our way to the regional championship in Sacramento, CA. From our humble beginnings as a club, our team has now grown to over 40 members.

We strive to teach those who want to learn about engineering and its business aspect in our school, community, and further.

| 40+ MEMBERS | DIVERSE |

SPONSORS

BACKGROUND & PROGRESS

Our team is estimated to spend $6320.00 this season. All this money will be spent responsibly and only to our team. If there is any money left over, we will use that money for next season, put it toward our fundraising efforts, or use it to benefit the community through various courses at local libraries for STEM and engineering.

PROGRESS: $3700/$6320
